INTERPERSONAL SKILL

- Versatile and Fast Learner
- Analytical and Observant

PROJECTS

SwiftParcel(Parcel Management Website) [Github-Client](#)|[Github-Server](#)|[Live](#) Jan 2025 - present

A MERN stack-based platform where users can book parcels for delivery, admins can assign delivery personnel, and delivery personnel can manage deliveries.

- Developed a Parcel Booking & Tracking system for seamless deliveries.
- Implemented Role-Based Dashboards for users, admins, and delivery personnel.
- Integrated React Apex Charts for admin statistics and a performance-based delivery leaderboard.

Tecnology: React, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase, Vercel, Stripe, JWT

DineWise(Restaurant Management Website) [Github-Client](#)|[Github-Server](#)|[Live](#) Dec 2024 - present

A MERN-stack restaurant management platform using the MERN stack to enhance online presence, improve customer interaction, and streamline internal operations.

- Seamless food ordering and management for customers.
- Integrate JWT-based private routes for secure menu management.
- Interactive UI with search and filtering for easy food selection.

Tecnology: React, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase, JWT, Vercel

Sportify (E-Commerce Platform) [Github-Client](#)|[Github-Server](#)|[Live](#) Dec 2024 - present

Sportify is a responsive e-commerce platform for buying sports gear and apparel, with user authentication and product management.

- Implemented user profiles with personalized product filtering and real-time inventory tracking.
- Created secure routes for inventory management, product uploads, and stock level tracking.
- Allow users to choose different variations of a product such as size, color or materials.

Tecnology: React, Tailwind CSS, Node.js, Express.js, MongoDB, Firebase, Vercel
